

Event #5 Geocaching Scoring Guidelines

Material to be provided by Station Master:

Journal card with waypoints

Stop watch

Geocaching

Using a GPS receiver patrols will be required to navigate to a series of 8 waypoints located at given coordinates around the camp. The maximum time allowed will be 30 minutes. Each waypoint station will have an associated number and letter designation which should be recorded by the patrol scribe on a journal card provided. A different Scout must complete each leg of the course. Patrols with less than 8 members may use members a second time after all other members have participated. There will be several different courses to help eliminate following other patrols. Upon completing the course, the journal card will be turned over to the judges for scoring. Scores will be determined by the number of correct waypoints identified. Total time to complete the task will be used as a tie breaker.

20 points will be awarded for participation

3 points are awarded for each correct waypoint

Total points possible: 50 points
