

Rope Making Scoring Guidelines

Material to be provided by Station Master:

Twine

Rope making batons

Knife

Waxed string for whipping

This is a fun event where everyone can learn how to make rope and whip the ends to prevent fraying. Participation points will be awarded to all participating patrols. A patrol may come back as many times as they would like as long as they complete their other events before those events close. Priority for rope making will be given to patrols who have not yet participated in this event.

20 points will be awarded to each patrol.
