

BOY SCOUTS OF THE APOCALYPSE

WHEN -
WHERE -
WHO - BOY SCOUTS AND VENTURE CREWS,
WHY - BECAUSE WE WANT YOU TO SAVE THE WORLD

APOCALYPTIC EVENTS

Mine Field – Your Patrol will have to collectively navigate the tricky Mine Field filled with exploding mines. Set one off and you lose a patrol member. Scouts, like the marines, leave no one behind.

Nitro-Crossing – Using a rope swing, get your patrol across a toxic river to get to the antidote for a deadly plague

Nuclear Reactor – Team must negotiate a laser web security system to remove the core of a nuclear reactor damaged in the Apocalypse. Set off one of the numerous security systems and the place gets locked down with your patrol trapped inside.

Compass Course – Using a GPS unit and compass – find sanctuary.

Chemical Clean-up – Help destroy some vials of poisonous chemicals that have been left from a failed attack.

Strive to Survive - Each team is given a scenario and the team members decide a plan of action together. Each team will receive a scenario, which will require the team members to arrive at a common consensus and make a decision. They must then carry out their decision.

Mad Max Medicine – Using various materials found at the site – your patrol must build a litter, medical facility and treatment room for the numerous victims of the Apocalypse. Time will be very limited so triaging the victims will be critical.

Defuse the Bomb – Your patrol will have to defuse a bomb without making it explode – Nerves of steel!!

Blinded by the Light – Your patrol has been blinded by a nuclear blast and now must work together to make a geometric shape out of rope to help signal other members of your troop to let them know who it is rather than being a trap.

Dutch Oven Weirdness - During a disaster, we know most supplies to make a meal will be scarce – except for “Spam” & “Twinkies”, which can survive anything. In this competition you can make any dish you like but you must use (2) 12oz cans of Spam & 6 Hostess Twinkies in the recipe. Judging will be based on creativity, taste and presentation. A recipe card must be included with your dish.

Troop Disaster Camp Design Event – Design your campsite with the Apocalypse aftermath in mind.

Repurposing Event – Repurposing is the use of something for a purpose other than its original intended use. Repurposing an item can be done by modifying it to fit a new use, or by using the item as is in a new way. The apocalypse has disrupted the economy and goods are no longer readily available. Your troop must repurpose something into something else to meet a need.
